Location: Hong Kong SAR (HKID Holder) | Internship Duration: 6+ months, 3+ days/week

EDUCATION

The University of Hong Kong

Master of Arts in the Field of Translation

Hong Kong, China

Sep 2026 – Jun 2027

PROFESSIONAL EXPERIENCES

Ant Group

Hangzhou, China

Event Operations & Data Analytics Intern, Full-time

Apr 2026 – Jun 2026

- **Operations Coordination and On-Site Management:** Supported operations for an international robotics competition, managing schedules and movement flow for participants, judges, and technical teams. Liaised with 5 internal functions including Finance and Compliance, assisting with contracts and risk reporting to achieve zero-delay execution across all sessions.
- **Data Monitoring and Operational Optimisation:** Built an operational dashboard tracking registration conversion and resource utilisation, producing daily reports and post-event recaps. Identified scheduling bottlenecks through data analysis, drove 3 process optimisation initiatives, and improved engineering delivery efficiency by 30%.
- **Offline Event and Logistics Support:** Coordinated with 3 external vendors and internal teams to support venue setup, equipment deployment, and on-site guidance, serving 120+ participants per session. Deployed MiniConda and Python environments, completed 20+ testing cycles, and ensured zero-system-failure throughout the pilot competition.

Hangzhou Daily – International Communication Center

Hangzhou, China

Brand Operations & Content Planning Intern, Full-time

Dec 2025 – Mar 2026

- **User Growth and Content Operations:** Managed a 1M+ follower overseas social portfolio, developing content strategies based on audience personas and platform algorithms. Increased engagement rate by 25% and organically reached 3.7M+ overseas users within 3 months, with the account ranking among China's top city-level international communication platforms.
- **Offline Event Planning and Execution:** Produced 10+ bilingual content pieces to support offline brand campaigns across heritage, tourism, and entertainment themes, generating 6.9M+ total impressions with a single post peaking at 500K+ views. Participated in on-site coordination and user interaction design, securing reposts from official overseas tourism boards.
- **Data Analytics and Daily Reporting:** Tracked engagement rates, follower growth, and impressions regularly, producing daily and weekly operational reports. Established a content performance evaluation framework that drove 200K+ net follower growth on a single project, validating the effectiveness of content strategies.

Proya Group · TIMAGE Brand

Hangzhou, China

Product Marketing & Data Analytics Intern, Full-time

Aug 2024 – Dec 2024

- **User Research and Market Insights:** Tracked competitor concealer dynamics and user pain points across Douyin and Xiaohongshu, identifying differentiated opportunities for TIMAGE's 3-shade concealer palette. Collaborated with media teams to produce 30+ organic posts, securing TOP5 search keywords and driving a 35% month-over-month increase in category search volume.
- **Data-Driven Decision Support:** Monitored click-through and conversion rates across 50+ content assets, optimising creator selection through A/B testing to improve click-through rate from 3.2% to 5.8%. Produced a 15-page campaign recap report, distilling 4 common characteristics of high-converting content to guide budget allocation.
- **Channel Operations and Campaign Execution:** Supported end-to-end KOL/KOC campaigns across Douyin and Xiaohongshu, screening and managing 30+ creators from a 200+ candidate pool. Responsibilities covered brief writing, content review, and performance tracking, generating 500K+ cumulative interactions and building a database of 50+ high-quality creators with a 40% reuse rate.

EXTRACURRICULAR EXPERIENCES

Huawei Cloud AI Tools Application & Evaluation

Dec 2022 – Mar 2023

- **Model Evaluation:** Completed the DevRun NLP project, building an AI poetry translation evaluation framework covering 130 bilingual poems and systematically compiling translation quality data (BLEU scores and human ratings).
- **Experience Optimization:** Established a double-blind comparison mechanism between human translations and AI-generated translations; produced evaluation reports with 10+ actionable recommendations, identifying failure cases such as complex sentence structures and imagery loss.
- **Insight Delivery:** Generated 3 structured reports delivered to the algorithm team, clarifying model iteration priorities and developing a reusable AI + language evaluation methodology.

SKILLS & INTERESTS

- **Languages:** Chinese (native), English (fluent; IELTS 8.0), Cantonese (daily conversation).
- **Technical Skills:** Advanced proficiency in MS Office Suite (including Vlookup and functions); SQL for data analysis; AI-native workflow development (Codex, WorkBuddy, Kiro); proficient in video editing and graphic design using Premiere Pro and Photoshop.
